

## Professor's Feedback- Spring 2012

### LESSON #1

*Maria--completely relevant and amazing game. You wowed the students and teachers. The point value was fantastic. It was so creative, out of this world. I can't wait to see your write up!*

### LESSON # 2

*Maria, lesson #2 is as terrific as lesson #1 and it's a pleasure to read your reflections--both grades will be stellar. You did an incredible job creating a meaningful and engaging activity that blended Spanish language learning with social studies content. The management techniques you used helped to keep the students engaged and on task but also with the liberty to talk to one another and be interactive. The stress you placed on fun vs. winning as well as discussions of "luck" are important "content" as well. Of all the lessons, yours struck the second grade teachers as the most useful and the one they wished they could all keep. I love the attachments you provide in this lesson plan--do you think you could send them to me so I can forward them to the second grade teachers? They will certainly use this game and you can be happy to know that you have left your mark on U.S. students!!!!*
